any or all bids without cause, and to reject any bid which it determines to have failed to comply with the terms of the Notice of Sale for the Notes.

Report Regarding Annual County Budget – Advisory Levy Objective

Levy Objective Benchmark

It is estimated that adopting a levy objective of 2.75% adjusting for inflation would result in a reduction in taxes to the County home owner.

This estimate is arrived at as follows: Using 2.65% as an estimate of new construction, a levy of 2.75% would result in a .10% increase in levy for the County homeowner. The Consumer Price Index (CPI) for the last 12 months ending May 2017 was 1.90%. Applying a 1.90% CPI decrease to the range results in an inflation-adjusted decrease of 1.80% for the County homeowner.

Fiscal Impact of Levy Objective

The Administration estimates presently that in order to achieve the 2.75% objective, it will be necessary to increase revenue or reduce spending by a combined net total of \$1.67 million. Certain major factors that could influence this amount positively or negatively are any State budget changes, sales tax revenue, health insurance, interest earnings, Human Services placement costs, Human Services Intergovernmental aids, jail revenue for the housing of federal inmates, and any economic development initiatives. It is not known at this time whether achieving this levy objective would impact programs or services. The Administration will identify this as part of the budget process, if necessary. There are presently no new County Board adopted programs that would impact the 2018 levy.

Debt Service

Debt service shall be included as part of the levy objective. Debt service will is currently projected to increase \$550,000 in 2018.
