KENOSHA COUNTY CAPITALIZATION POLICY

Capital assets are defined by the government as assets with an initial cost of more than \$5,000 for general capital assets and infrastructure assets, and an estimated useful life based on the asset type as shown below:

| | |
|-------------------------|--------------|
| Buildings | 50-100 Years |
| Land Improvements | 20 Years |
| Machinery and Equipment | 5-40 Years |
| Infrastructure | 15-50 Years |

The County uses the straight-line method of depreciation on all assets except land which is classified as an inexhaustible asset and not depreciated in accordance with general accounting principles. Computer system assets are capitalized as part of a network system so individual items may be less than \$5,000 but are considered capital assets due to the cost of the entire system.

All capital assets are valued at historical cost, or estimated historical cost, if actual amounts are unavailable, based on the amount provided by the appraisal firm retained by the County. Donated fixed assets are recorded at their estimated fair value at the date of donation. Assets obtained during the course of the year are depreciated for that portion of the year in which the asset was owned while assets that are disposed of are not depreciated for the portion of the year in which the asset was disposed of..

- Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. For tax-exempt debt, the amount of interest capitalized equals the interest expense incurred during construction netted against any interest revenue from temporary investment of borrowed fund proceeds. The cost of renewals and betterments relating to retirement units is added to plant accounts. The cost of property replaced, retired, or otherwise disposed of, is deducted from plant accounts and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

The County uses the definition provided by GASB in the determination of whether a particular asset should be reported as a capital asset. If the following three questions are answered as a "yes", the asset is a capital asset that is reported in the statement of net assets.

- Does the asset have an initial useful life that extends beyond a single reporting period?
- Does the historical cost of the asset equal or exceed the government's GAAP capitalization policy or threshold?
- Does the expenditure extend the useful life of the asset?

A component of the County's overall capital asset inventory is the County's infrastructure assets. Various capitalization rules have been developed specific to this type of capital asset including the following:

Original valuation of highway infrastructure was determined using current value replacement cost adjusted using published rate tables with Price Trends for Federal-Aid Highway Construction deflation factors. The actual amount expended for current year constructions costs is the historical cost for each new road segment to be capitalized. Salvage value is 25% of the historical cost. This represents the physical road base which is reused even if the road is completely rebuilt. When a road is reworked any remaining book value less the salvage value is depreciated in that year. The

same salvage value is then attributed to the newly reworked road as its salvage value. If a road becomes fully depreciated without its being reworked at the end of the expected useful life of the road segment, a new adjusted estimated useful life is used and the segment is depreciated using the revised estimated useful life.

Kenosha County Fiscal Operations

Effective January 1st, 2012, all Kenosha County fiscal operations shall be under the oversight of the Department of Finance and Administration to the extent permitted by law.

Fiscal operations under this order shall include but not be limited to: payroll, time and attendance, general ledger, accounts payable, grant and grant compliance, budgeting, cash handling, cost reporting, construction fiscal management, purchasing, information systems, fiscal studies, management of fraud and fraud prevention, and all other fiscal functions and fiscal operations.

Kenosha County employees/contractors who perform fiscal tasks as their primary duty who are not currently employed/contracted within the Department of Finance and Administration may be reassigned to that Department for supervision, work assignment, etc, as determined by the Finance Director.

Departments shall have the responsibility of conducting their operations so as to ensure that they remain within their legally approved budget. All Departments shall ensure that their operations balance as a whole when revenues are balanced against expenditures.

Fiscal tasks or fiscal functions performed by County staff/contractors shall be done in accord with procedures established by the Department of Finance and Administration. County staff performing fiscal tasks shall abide by procedures established by the Department of Finance and Administration regardless of whether they are supervised within the Department.

From time to time, the Department of Finance and Administration may conduct a review of County fiscal operations. Based upon these reviews, staff and contractors that are determined to perform fiscal tasks as their primary duty may be directed to report directly to the Department of Finance and Administration as determined by the Department Director (or designee) to fulfill the purpose and intent of this order.

2020 Handbook Revisions Summary

Electronic Communications – replaced by new Technology Use policy approved by Board June 2019.

Recruitment – internal applicants currently serving an evaluation period are not eligible to apply for openings; adds the word “funded” after “grant” because we no longer have that employee type.

Selection – Applicant Background Investigation: Human Resources “will” investigate backgrounds of applicants; replaces address and phone number with more general “contact information.”

Resignation/Retirement – Effective date is last day worked.

Overtime – adds potential for mandatory overtime when minimal staffing needs are not met; hours worked for calculating overtime no longer includes paid benefit time except for paid holidays.

Attendance – acknowledges that departments/divisions may establish their own attendance policies.

PTO – Employees who separate employment receive a prorated value of that year’s PTO grant – if unused, only prorated value is paid out. Parks and Golf long-term seasonals will be granted two PTO days per season with the third consecutive season of employment (a qualifying season is one in which they worked 900 hours). This is a use-it or lose-it policy.

Funeral/Bereavement Leave – simplifies the language and allows for same three days of time off for all immediate family with one day off for aunt or uncle; allows for additional time from PTO or unpaid time off policies subject to the terms of those policies.

Accident and Sickness Benefit – Probationary employees only qualify for 2/3 income replacement benefit and extends probationary period by length of leave; removes requirement to stay within immediate vicinity of their home relying instead on fitness for duty and return to work which requires employee not to engage in activities that would lengthen their healing or prevent the return to work; removes references to “temporary disability” and replaces with “injury or illness that renders the employee unable to work.”

Employee Health Benefits – clarifies that benefits end on last day worked (this was effective in 2019).

Leaves of Absence – eliminates ability to extend employee health benefit for up to six months following expiration of A&S benefits. This would be a COBRA qualifying event. Updates reference under unpaid time off to half or full shift (rather than 4 or 8 hour blocks) to accommodate shifts other than 8 hours.

Employee Assistance Program – Reference added to handbook; benefit was added 1/1/19.

Progressive Discipline Policy - Clarifies upfront in the policy how long reprimands remain active; adds disciplinary action resulting from violating the harassment prevention policy to types of discipline that remain active for length of employment; changes references to “any measurable level of alcohol or drugs” in the system to violations of the drug and alcohol abuse policy.

Policy Acknowledgement – updates reference to new digital policy software.

Other minor editing to update or correct references such as use of gender specific pronouns.

2. All Supervisors shall wear proper attire to all regular meetings of the County Board and Committee of the Whole meetings.
3. "Proper attire" shall mean, with respect to male members, a suit or sport coat and dress pants worn with a collared shirt or banded collar shirt, with or without a tie. "Proper attire" shall mean, with respect to female members, a dress, pantsuit, skirt with a sweater or blouse, or blazer with dress slacks. For all Supervisors "Proper attire" shall also mean that clothing shall be clean, neat, and pressed.
4. The Chair of the County Board may, at his or her discretion, suspend this rule for meetings held during the months of June, July, August, and September, or when environmental factors, such as a lack of air conditioning, warrant such a suspension. The Chair may also, at his or her discretion, waive or modify this requirement on a case by case basis for individual members or the body as a whole.
5. The County Board may, by motion and for good cause, suspend this rule for a particular meeting for the entire County Board or for any member or members thereof. Any such suspension shall require only a majority vote.
