RE: Letter of Rogatory
[Notification]

This legal correspondence should be construed as Constructive Notification and/or settlement agreement contract along with instructions to vacate the judgment of convictions in case no(s) 10,993, 10, 994, 11,914 and 1936-C, and for Kenosha County Board and Judicial system, et al., to pay the full amount of \$ 2 billion dollars sum-certain to the undersigned for constitutional violations, corporate violence and fraud through your own knowledge of Notice and terms as defined pursuant to Rule §§ 401.201(23m), 25(a)(b)(c) and 26(d), Wis. stats.

The undersigned present numerous legal demands pursuant to § 401.201 (36) related to common law remedy which an aggrieved party is entitled with or without tribunal. Under the remedies provided by Rule §§ 401 to 411 shall be liberally administered to the end that the aggrieved party may be put in as good a position as if other party had fully performed under Rule § 401.106(1). see, Minn. L. Rev. 713-Article (Cure after breach of contract under Restatement (second) of Contracts; Analytical comparison with the Uniform Commercial Code).

The Kenosha county Board, et al., and Kenosha County Judicial system behaved irresponsibility to cost of human liberty and property, and the consequences of his [or her] actions hadn't even put a dent in his wallet [or her purse] because they are able to walk away scott free for their crimes!

The undersigned [re, claimant] and other incarcerated persons know and/or understand damn well if the theft, fraud and racketeering had been some out-of-work individual or mentally ill person, he'd be whiling away his [or her] days at the expense at the STATE prison facility for a year or better! Lady Justice may have been blind, but she could smell money a mile off, and her scale tipped accordingly.

482080 JAGT

Kenosha County Board, and Judicial system crime spree and racketeering is not a new fruition because there are other historically events such as the Salem witch-craft trials of 1692, no doubt was the execution of completely unjustifiable consequence of these infamous witch-craft trials.

One of the matyrs to the terrible delusion which should have taught us....that the influential classes....are fully liable to all their passionate error that has ever characterized the maddest mob to events of these executions.

The executions mounted in 1692, Essex County Officials grew uncertain about their legitimacy, and it was not long before prominent clergymen like Increase Mather spoke out against the trials as a "passionate error." Indeed, in 1711, the courts reversed the convictions against the executed Witches!

It is plain that it was a "delusion" to have believe these matyrs guilty of witch craft, ulterior motive for clergymen, judges, statemen--the purported wisest, calmest, holiest person of their day--stood in the inner circle round about the gallows, loudest to appaud the work of blood, was only to coveted the land [estate] and other personal property of innocent persons.

If any one part of their proceedings can be said to deserve less blame than another, it was the singular indiscrimination which they prosecuted, not merely the poor and aged, as in former judicial massacres, but people of all ranks; their own equals, brethren and wives. It was well know, that the victim had recognized the bitterness of personal enmity in his prosecutor's conduct towards him, and that he declared himself hunted to death for his spoil [property]. The gossip around Salem after the trials insinuates that the "influential classes" had been more interested in "real estate" than in witch-craft.

In essence, then, the undersigned has build his lawful claims and believes a crime was committed against the notion that modern day citizens of WISCONSIN and the undersigned are again being accused and convicted also as a Wizard of witch-craft, when there are no criminal laws in America, and offer in its place the more reasonable explanation that the undersigned's convictions and seizure of wealth are the result of an unequal struggle between STATE of WISCONSIN [Incorporated] and Kenosha County Municipal, COUNTY BOARD and Judicial system [Incorporated] socis-economic status [corporations] and the plebian persons.

The moral censure of the historical figures--the undersigned and corporation [Kenosha County and/or STATE of WISCONSIN]--is premise on the assumption that their victims are innocent of his [or her] crimes since there are no criminal laws in America as clearly announce by our own U.S. Supreme Court as found within the case of US -v- Hudson & Goodwin, 11 US 32, 3 L.ed. 259, 181 US Lexis 365, 7 Cranch 32 (1812) by explaining that "certain implied powers must necessarily result to our courts of justice from the nature of their institution. But jurisdiction of crimes against the State is not among those powers. To fine for contempt--imprison for contumacy--inforce the observance of order, & c. are powers which cannot be dispensed within courts, because they are necessary to the exercise of all others; and so far our courts no doubt posses powers not immediately derived from statutes; but all exercise of criminal jurisdiction in common law cases, we are of opinion is not within their implied powers!

Kenosha County Board, Municipal and Judicial system's guilt of crimes may never come into question. In addition to showing that "the wrong-doing of one generation lives into the successive ones." The fictional corporation of STATE of WISCONSIN, and KENOSHA COUNTY BOARD and JUDICIAL's sin by transforming it into a rapacious deed.

The undersigned express a great deal of stress upon some definite moral purpose, at which other incarcerated persons may profess to aim his [or her] own lawful claims. Not to be deficient, in this particular, the undersigned has provided himself with a moral;--truth, namely, that the wrong-doing of one generation lives into the successive ones, and, divesting itself of every temporary advantage, becomes a pure and uncontrolled mischief;--and, the undersigned would feel it a singular gratification, if the purported Judicial system might effectively convince convict person and/or incarcerated persons (or, indeed, anyone man or woman) of the past and present folly tumbling down an avalanche of ill-gotten wealth, or real estate, on the heads of an unfortunate posterity, thereby to maim and crush them, until the accumulation mass shall be scattered abroad in its original atoms. In good faith, however, the undersigned is not sufficiently imagine to flather himself with the slightest hope of this kind. When litigation does really teach anything and/or produce any effective operation, it is usually through a far more subtle process than the ostensible one!!

The undersigned has considered it hardly worth his while, therefore, relentlessly to impale the purported criminal/civil functions with its moral, as with an iron rod-or rather, as by sticking a pin through a butterfly-- ~~this~~at once depriving it of life, and causing it to stiffen in an ungainly and unnatural attitude. A ~~high~~ truth, indeed, fairly, finely and skillfully wrought out, brightening at every step, and crowning the final development of review, may add an artistic arrangement, but is never any truer, and seldom any more evidence, at the last page than at first.

It has been part of the undersigned's objective, however, to describe these local manner of crimes, fraud and racketeering by Kenosha County Board, Municipal, Judicial system, and STATE of WISCONSIN [Incorporated].

The personages of criminal activities and events--though they give themselves out to be of Ancient stability and considerable prominence--are really of the undersigned's own making or, at all events, of his own personal knowledge and belief; their virtues can shed no lustre, nor their faults redound, in the remotest degrees, to the discredit of the venerable corporation of Kenosha County Board, Municipal, Judicial system and STATE of WISCONSIN of which they profess to be inhabitants.

The undersigned would be glad, therefore, if--especially in the quarter to which he alludes--the criminal/civil remedies would be read strictly as violations of natural rights, having a great deal more to do with the clouds over-head, than with any portion of the actual soil of STATE of WISCONSIN [Incorporated].

The undersigned advances his constitutional due process claim, does lawfully claim that Kenosha County Board, Municipal, Judicial system and STATE of WISCONSIN [Incorporated] has deprived him of personal property and liberty interests without due process of law.

The Fourth Amendment protect "the right to be let alone....the right most valued by civilized men," "the 'wrong' condemned by the amendment if 'fully accompanied' by the unlawful search and seizure...." US -v- Leon, 468 US at 906 (quoting US -v- Calanda, 414 US 333, 354 (1974)). There is, literally, no way to make the aggrieved party whole again.

And yet there must be a remedy for a violation of the Fourth Amendment or its stricture would be "no more than a code of ethics under the honor system."

The court articulated this concern in Weeks -v- United States:

If letters and private documents can [unconstitutionally] be seized and held and used in evidence against a citizen accused of an offense, the protection of the Fourth Amendment declaring his right to be secure against such searches, is of no value, and, so far as these thus placed are concerned, might well be stricken from the constitution. Id at 393.

The purported STATE of WISCONSIN Judicial system is only a privately owned corporation called government. The State of WISCINSIN's judge(s) are only privately employed administrative Officer(s) as pointed out within the case referred to as Thompson -v- Smith, 155 Va; 367, 154 S.E. 579, 1330 Va. Lexis 170, 71 A.L.R. 604 (1930) stating....when acting upon an application for the restatement of a permit revoked by the Chief of Police, the judge of the Municipal court is "acting as an administrative officer and not in a Judicial capacity."

The key words is "ACTING" because when the real truth is actually reveal all American courts are merely [pseudo courts] or fictions who ACT!

More specifically, "[r]espect for law, particularly among Wisconsin Judicial system [pseudo courts] **responsible** for administration of the State's purported criminal justice system, is in itself a matter of the highest public interest.

The public at large is not served by....the willful or wanton disregard for constitutional guarantees. US -v- Mitchell, 322 US 65 (1944) (The court remarked, however, that [i]llegality is illegality, and officers of the law should deem themselves as special guardians of the law").

The undersigned express the lawful claim, it would be hard, if not totally difficult, for Kenosha County Board to establish Kenosha County Judicial power and/or authority founded upon the U.S. Constitution.

Admittedly, on September 3, 1783 (solar), after the purported Revolutionary War, a delegation lead by Ben franklin met in Paris and signed the purported Treaty, "Peace of Paris." see, Lansing -v- Smith, 4 Wend 9, 20 (1829)("People are entitled to all rights which formerly belong to the King by his prerogative").

The purported State government are but Trustees acting under a derived authority, and have no power to delegate what was not delegated to them. But, the People, as the Original Fountain, might take away what they had lead and entrust to whom they PLEASE! They have the whole title and as absolute proprietors have the right of using and abusing. [jus utendi et abutendi].

It seems awful funny that the Kenosha County Judicial system cannot provide any information, evidence or even answer to how their STATE Constitution operates upon the "private" man or woman. GEE, I wonder why?

It is well establish principle of law that the county courts are no longer constitutional courts. see. Fehl -v- Jackson, 177 Ore. 200, 161 P.2d 782 (1945).

If the county courts and other courts are not constitutional courts, then have the people not been deceived? And by what authority does a court operates it purported courts via their fines and punishment where there's no nexus other than by adhesion of **undisclosed fraud** to their statutes.

The unwritten law, is of course, the Common Law [the law non scripta] which is that system of law guaranteed to the sovereign people by the due process clause of the state and federal constitution.

As cited above, the meaning of the due process clause is that the Common Law "shall" be the unalienable right of the sovereign people, nor can it be removed from him [or her] by mere statutes, or case law opinions related to Common Law privileges to resist an unlawful detention and to obtain a meaningful opportunity to be heard. Cornell -v- Hichen, 11 Wis. 353, 386 (1860)("A right accrue to the one to have or demand something of the other, such a right cannot, against the will or the party to be injuriously affected, be divested, modified or controlled by any subsequent legislation" Id at 388-89).

The undersigned's liberty and property interest is protected under Constitution, and International Laws.

The undersigned continues to act in good faith towards the settlement of claim for unlawful detention or loss of liberty. The undersigned uses the words of "without prejudice" near his signature in this document to indicate that he exercise the "REMEDY" provided within UCC 1-103.6, UCC 1-207.4, UCC 1-207.7 and UCC 1-207.9, whereby the undersigned have reserved his common law right not to be compelled to perform under any contract and/or agreement or bail bond that he had not entered into knowingly, voluntary and intentionally. That reservation serves as NOTICE upon all administrative agencies of government--National, State and Local--that the undersigned do not and will not, accept the liability associated with the "COMPELLED" performance of unlawful convictions, restitution, court obligations and/or loss of liberty and personal property based upon void judgment or court's obligations.

The undersigned's lawful claim relates to loss of liberty and property interest contrary to due process and equal protection clause and in some events unlawful confiscation and seizure in violation of Fourth Amendment to U.S. Constitution constitutes irreparable injury.

The undersigned serve constructive NOTICE that the undersigned is in fact alive, and capable of managing his own estate, and demands a certain remedy pursuant to section 9, Article I, Wisconsin Constitution to honor the demands for discharge of all alleged debts and false imprisonment.

The International law applies here because all citizens residing within the Republic of STATES suddenly and falsely were "EXPATRIATED" from his [or her] status without his [or her] knowledge or consent and our labor, souls, children, property, sweat equity and credit became the financial collateral for the public debt, which has been scripted after the Ancient Roman trust scheme.

The Internatuional Covenan on Economic, Social and Cultural Rights at Article 1, section 2 reads to wit: "All people may, for their own ends, freely without prejudice to any obligations arising out of international cooperation, based upon the principle of mutual benefits and international law. In no case may a people be deprived for its own means of subsistence. Id at International Bill of Human rights.

The International law prohibits people from being forced to surrender his [or her] property, wealth and resources to pay the debt of U.S. National public debt.

The undersigned have been forced to surrender his own liberty, wealth and property to pay off the debt of United States, and intimated to do so by Wisconsin Judicial system who lacked judicial power and/or authority to imprison him.

This special proceedings before Kenosha County Board is an exercise of the undersigned's prerogative right, title and interest to demand a common law remedy related to his unlawful convictions and detention contrary to International laws, U.S. Constitution and interest as sovereign persons. see, The People -v- Herleimer, 15 Am. 379, 4 cown (NY 345, 348)(1825).

The undersigned did **not** accept the offer to contract, and the undersigned did not consent to the purported criminal proceeding which happen to be illegal.

In order to promulgate and enforce criminal law to govern the Sovereign public, government must be Sovereign too, which is an accepted Rule of Law derived from the Ancient Law of Kings. Corporations are not and can never be sovereign. They are not real; they are fiction and only exist on paper!

Since, STATE of WISCONSIN [Incorporated] and KENOSHA COUNTY BOARD and JUDICIAL system [Incorporated] are not sovereign, they cannot promulgate or enforce criminal laws; they can only create and enforce civil laws, which are duly bound to comply with LAWS of Contracts. The Law of Contract requires signed written agreements and complete transparency!

The fact that state or federal legislature has commingle mere regulatory [limited application] statutes, and attempted thus to hide them in the substantive crime codes, changes Nothing!

The legal point remain the same, court has limited jurisdiction like county courts, **being** mere creatures of the statutes, have no power except such as derived from the statutes, and it must appear upon the face of their proceedings that they acted within the powers granted. If this does not appear, all they so is CORAM NONJUDICE and void. see, McClaghry -v- Deming, 186 US 49, 22 S.Ct. 786 (1952)(A court-martial, is the creature of statute, and as a body or tribunal, it must be convened and constituted in entire conformity with the provisions of the statutes, or else it is without jurisdiction).

There are No Criminal Laws in America. Rule 1 of the Federal Rules of Procedure use to specify this very fact. see, e.g., for example stated, "ALL LAWS are CIVIL," which was later modified by Judiciary Act to conceal this fact by creating one set of civil rules and one set of criminal rules but this never changed the fact that there are No criminal Laws in America!

The Judiciary Act was necessary, once common people began to represent themselves in court and uncovered this and other frauds.

The undersigned will express another legal point that most Civil Contracts were secured by and through several federal and state voluntary registration programs such as birth certificate, and/or social security, etc., but was designed to convert and enslave flesh and blood American citizen of the Republic into corporate property.

Generally, when any individual is arrested or sued for a statutory [private] regulations, also known as criminal or civil laws, he [or she] is actually being accused of violating a corporate [private] regulation or corporate breach of contract. A civil contract that only exist over human being by deception and fraud.

The undersigned is more than willing to point out and stress that the purported government agency are only fictional character or entity in law, created by a bankrupt government.

These corporate laws and regulations referred to as STATE of WISCONSIN statutes and their affect and control over human being and incarcerated persons is and/or was deceptively obtained through civil contracts.

Legally, most of these civil contracts lacked "MUTUALLY" that all registrants must understand the true nature and intent of the contract and subsequently must knowingly accept or consent to the terms of those contracts.

Admittedly, Rule § 403.305(1) permits for collection of real defenses including but not limited to "illegality of the transaction" as to render obligation of the party a "nullity."

As cited above, these suversive tactic perverts "MUTUALLY" and lawfully eliminate any and all contractual reslationship, a/k/as Uniform Commercial Codes.

LEGAT 080284

Kenosha County Board, et al.; Municipal and Judicial system have listen and/or hear the story of Pontius Pilot and how he found Jesus to be innocent, but the people demanded he be crucified? He washed his hands before the multitude saying, "I am innocent of the blood of this just person." There is something Kenosha County Board, et al might relate to this story, and that is, when the purported circuit court in Kenosha County applies codes and statutes that result in incarceration for man-made [and/or corporate] criminal crimes, where there is no injured party, which is contrary to the law of land [common law], which the circuit court does for the sole purpose of pure profits, the blood of that man, woman or juvenile is on your hands, and YOU are guilty before the Creator of all the abuse your office cause them, and the hardship your office impose upon the family, your office is guilty of breaking up the family, causing hardship on the dependants, causing families to go on welfare, depriving children of parents.

Wisconsin Judicial system are using and selling the souls of men and women, even juveniles, and your office will be judge by the Creator of Universe one day for the evil your office have inflicted and done for mighty dollar. It is your duty to correct and/or cure this situation as fast as possible.

Even when a person was guilty of theft; creator did not allow him to be imprisoned; person was to repay the victim, sometimes up to treble damages, but never was person placed in prison. In that way, the families were not separated and left to fend for themselves. YOU and cohorts cannot wash your hands saying YOU are innocent, as the deeds has been **done.**

Repent, and follow the Creator's commendments. Peace be unto YOU, and the undersigned will expect to be release very soon due to your faithful performance and honesty. see, Green -v- Johnson, 513 F.Sup 965, 977 (1981) ("The pubic interest is served by the due and faithful fullfillment by public officials of the duties imposed upon them by law").

But as TRUSTEES under the law, Kenosha County Board, Municipal and Judicial system have no alternative but to honor the undersigned's legal demands and instructions to be "Discharge" from any obligations and/or debts, and to vacate the purported judgment of convictions as being void.

In sum, one of primary function of Constitution is to protect the People against arbitrary action by his [or her] own government. US -v- Verdigo-Vriquidez, 949 US 259, 110 S.Ct. 1839, and on remand, 902 F.2d 773 (1990); see also Casteel -v- McCaughtry, 500 N.W.2d 227, 281, cert. denied, 114 S.Ct. 327 (1993).

In face of this rather over-powering authorities, the undersigned express that the time, expense and inconvenience of the administrative procedures are guaranteed to a "certain remedy,"--"promptly and without delays," and cost pursuant to section 9, Article I, Wisconsin Constitution.

The settlement agreement contract constitutes actual Notification providing sufficient facts to put a prudent person of ordinary intelligence upon reasonable inquiry as to the above stated terms. It has the same legal effect as having actual knowledge. For this reason, this NOTICE nullifies "objective reasonable reliance on the law" as a defence for mala in se act on your office part regarding this contract. In any action against Kenosha County, this NOTICE will be prominent exhibit displayed to the jury.

The undersigned's affidavit will establish the facts of KENOSHA COUNTY BOARD, et al, Municipal, corporation counsel and JUDICIAL system's fault, neglect and general acquiescence to the matter predicted upon corporation counsel and KENOSHA COUNTY, et al., pursuant to and relative to UCC, state statutes and otherwise.

Additionally, Section 9, Article I concludes with the phrase "conformably to the laws." In this administrative process which the custom, practice and procedures for which the undersigned complained as violative of the Constitution, International Laws and section is not only "conformably to the law." It is the law establish by U.S. Congress and Wisconsin Legislature.
