

Enlarged City Map

Bicycling in Kenosha County

We hope that you, too, will discover the beauty and enjoyment of our urban and pastoral landscape.

This map will help you navigate the county's varied geography and discover our many features, like the splendor of the Lake Michigan shoreline; the interesting venue of four exceptional museums and the enjoyment of a Saturday street market on the lakefront; the quiet, natural beauty of our county parks and recreational facilities; and the beautiful western county communities that adjoin our various inlake lakes area.

Kenosha County is a wonderful place to live and a great biking destination to enjoy. *This is the quality of life in Kenosha County.*

Have a safe and happy trip and we certainly hope that you will return.

Trans-County Bike Trails

Kenosha County bicycle facilities have been planned to provide a trans-county network of pathways for you to explore on two wheels. Our commitment has been focused on creating routes that are *"bicycle friendly."*

On-the-road signage has been designed in full compliance with State DOT standards to help guide your travels and to make everyone mindful that roadways are to be shared by all.

Roadways may vary due to, but not limited to, traffic volume at certain times of the day, traffic speed, pavement widths and topography. It is the responsibility of individuals to choose travel routes on the basis of their skill, knowledge and experience.

Discrepancies may arise between the trail map and actual conditions to impede a positive recreational experience. Please know that we would appreciate your informing the County of any such change in *"bicycle friendly"* road conditions.
