Will You be attending (Circle One) Yes No

Visited the WWII MEMORIAL in  
Washington D.C.? Yes No

## SERVICE HISTORY

Branch \_\_\_\_\_

Rank \_\_\_\_\_

Dates of Service \_\_\_\_\_

Our WWII vets number just under three million. We are losing these valuable souls at the alarming rate of nearly 1,200 each and everyday. The average age of these WWII Veterans is 90 years old

For a variety of reasons, these aging veterans are unable to travel to Washington D.C. to visit this Memorial which was dedicated to all of them.. Since they are unable and in many cases the family members are unable to experience the honors intended for them, PILLARS OF HONOR brings the memorial model and a tribute to these veterans.

## The Mission of Pillars of Honor

Our efforts are focused on presenting a two hour program honoring the veterans and presenting a history of their World War II memorial. The program includes music, military honors and the unveiling of the original model designed by architect Friedrich St. Florian.

The memorial represents the long overdue recognition of the unselfish contributions of those who gave their lives and served our country during one of the most critical events in our nation's history.

Our program is supported by local organizations and private individual contributions

This is an excellent opportunity for World War II veterans to see their memorial, to share with their colleagues, and to reflect upon their sacrifices during one of the most trying times in the history of the united states
