WHEREAS, Section 814.705 (1) (a), Wisconsin Statutes, authorizes the Kenosha County Board of Supervisors to establish fees higher than the level set by state statute for various services performed by the Kenosha County Sheriff's Department.

WHEREAS Section 814.70, Wisconsin Statutes, authorizes the Kenosha County Sheriff's Department necessary expenses incurred with respect to paper service, and Deputy stand-by time with respect to Writs of Restitution, Writs of Assistance, and Writs of Replevin., and

Agreement Articles for Federal Fiscal Year 2023 Homeland Security Awards

Summary Description of Award

The purpose of the FY 2023 HSGP is to support state and local efforts to prevent terrorism and other catastrophic events and to prepare the Nation for the threats and hazards that pose the greatest risk to the security of the United States. The HSGP provides funding to implement investments that build, sustain, and deliver the 32 core capabilities essential to achieving the National Preparedness Goal of a secure and resilient Nation. Among the five basic homeland security missions noted in the DHS Quadrennial Homeland Security Review, HSGP supports the goal to Strengthen National Preparedness and Resilience. The building, sustainment, and delivery of these core capabilities are not exclusive to any single level of government, organization, or community, but rather, require the combined effort of the whole community. This HSGP award consists of State Homeland Security Program (SHSP) funding under the Authorized Listing Number (ALN) 97.067 in the amount of 4,847,500.00 awarded on 9/1/2023 under the federal award identification number EMW-2023-SS-00041-S01. This grant program funds a range of activities, including planning, organization, equipment purchase, training, exercises, across all core capabilities and mission areas.

Article I. Applicability of DHS Standard Terms and Conditions

Section 1.01 Recipients and Subrecipients

The Federal Fiscal Year (FFY) 2023 DHS Standard Terms and Conditions apply to all new federal financial assistance awards funded in FFY 2023. These terms and conditions flow down to subrecipients unless an award term or condition specifically indicates otherwise. The United States, Department of Military Affairs and Wisconsin Emergency Management have the right to seek judicial enforcement of these obligations.

Section 1.02 Tribes

The DHS Standard Terms and Conditions are a restatement of general requirements imposed upon recipients and flow down to subrecipients as a matter of law, regulation, or executive order. If the requirement does not apply to Indian tribes or there is a federal law or regulation exempting its application to Indian tribes, then the acceptance by Tribes of, or acquiescence to, DHS Standard Terms and Conditions does not change or alter its inapplicability to an Indian tribe. The execution of grant documents is not intended to change, alter, amend, or impose additional liability or responsibility upon the Tribe where it does not already exist.

Article II. Assurances, Administrative Requirements, Cost Principles, Representations and Certifications

- (a) DHS financial assistance recipients must complete either the Office of Management and Budget (OMB) Standard Form 424B Assurances - Non-Construction Programs, or OMB Standard Form 424D Assurances - Construction Programs, as applicable. Certain assurances in these documents may not be applicable to your program, and the DHS financial assistance office (DHS FAO) may require applicants to certify additional assurances. Applicants are required to fill out the assurances as instructed by the awarding agency.
- (b) DHS financial assistance recipients and subrecipients are required to follow the applicable provisions of the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards located at Title 2, Code of Federal Regulations (C.F.R.) Part 200 and adopted by DHS at 2 C.F.R. Part 3002.
- (c) By accepting this agreement, recipients and their executives, as defined in 2 C.F.R. section 170.315, certify that their policies are in accordance with OMB's guidance located at 2 C.F.R. Part 200, all applicable federal laws, and relevant Executive guidance.

In order to initiate EHP review of your project(s), you must complete all relevant sections of this form and submit it to the Grant Programs Directorate (GPO) along with all other pertinent project information. The EHP review process must be completed before funds are released to carry out the proposed project; otherwise, DHS/FEMA may not be able to fund the project due to noncompliance with EHP laws, executive orders, regulations, and policies.

If ground disturbing activities occur during construction, applicant will monitor ground disturbance, and if any potential archeological resources are discovered the applicant will immediately cease work in that area and notify the pass-through entity, if applicable, and DHS/FEMA.

County of Kenosha

Resolution No. ____

Subject: A RESOLUTION TO LEASE KENOSHA COUNTY PROPERTY LOCATED AT 1301 85 th STREET TO SQUARE DEAL TREES LLC FOR TWO MONTHS FOR THE SUM OF \$250

Prepared By: John F. Moyer			

Whereas, Kenosha County recently acquired the property located at 1301 85th St., Kenosha, WI 53143, and

Whereas, this lot had been used in November and December as a Christmas tree lot for more than 30 years and Kenosha County was approached by the LLC which has been selling trees there by arrangement with the predecessor owner in order to continue for two more years to sell trees at the lot, and

Whereas, the property is currently vacant and its historic use and community familiarity support use by Square Deal Trees LLC and in the near-term it would be in the County's best interest to enter a short lease with a viable tenant, to assist in covering the on-going maintenance of the property, and

Whereas, the County was asked by Square Deal Trees LLC. to enter into a one-year lease (subject to one equivalent renewal term for 2023) for the vacant grass lot property, for the sum of \$250, to operate a small, private, tree lot for holiday sales between November 1 and December 26, and after those terms were both executed without issues or problems, it became clear that the County would continue to occupy the property in 2024 and 2025, and

Whereas, the proposed use would be consistent with the property's current zoning, offer some short-term financial assistance for the property's maintenance and provide a venue for the continuation of a long-time holiday tree sales opportunity in the community.

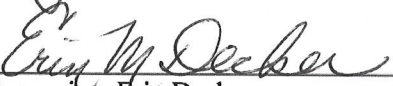

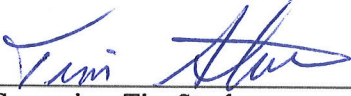

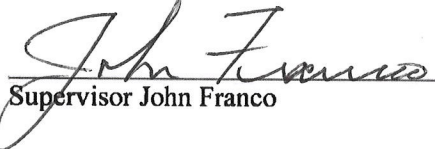

NOW THEREFORE BE IT RESOLVED, The County Board of Supervisors approves the lease of the Kenosha County property located at 1301 85th St., Kenosha, WI, for \$250 per two month term, and along the terms of the attached lease; and the County Clerk and County Executive are authorized to sign all necessary documents.

County of Kenosha and Square Deal Trees, LLC

This Commercial Lease Agreement (Lease) is entered into on this ____ day of _____, 2024, by and between the County of Kenosha, (Landlord), a Wisconsin municipal government whose principal administrative offices are located at 1010 56th Street, Kenosha, WI 53140, and Square Deal Trees, LLC, (Tenant), a Wisconsin corporation bearing FEIN, 39-1910500 and whose address is W8444 Trillium Lane, Antigo WI 54409. Landlord is the owner of land whose address is: 1301 85th St., Kenosha, Wisconsin 53143, part of which is the property made available for lease, as described herein (Leased Premises, or Premises).

Landlord desires to lease the Leased Premises to Tenant, and Tenant desires to rent the Leased Premises from Landlord for the term, at the rental and upon the provisions set forth herein.

THEREFORE, in consideration of the mutual promises contained herein, and for other good and valuable consideration, it is agreed:

Term

The Initial Term of the Lease shall begin on the 1st day of November, 2024, and end on the 26th day of December, 2024. Landlord shall use its best efforts to put Tenant in possession of the Leased Premises on the beginning of the Lease term. If Landlord is unable to timely provide the Leased Premises, rent shall abate for the period of delay. Tenant shall make no other claim against Landlord for any such delay.

Tenant may renew the Lease for one extended term as above for 2025 **but only at the offer of the Landlord and contingent on lot availability**. Tenant shall exercise such renewal option, if at all, by providing written notice responsive to Landlord offer of renewal by no later than August 15, 2025. The renewal term shall be as set forth in this Lease and otherwise upon the same covenants, conditions and provisions as contained in this Lease.

Rent

Tenant shall pay to Landlord during the Initial Term rent of \$250. Payment shall be made to:

Kenosha County Treasurer's Office
1010 -56th Street
Kenosha, WI 53140

Space Leased.

This Lease Agreement involves tax parcel 06-123-18-201-001, also known as 1301 85th Street, a grassy lot depicted in attached Exhibit One (1). Tenant shall have the right to occupy and use the lot. Tenant shall have the right to use the entire outside yard areas associated with the premises. Tenant may use the

Job Center parking area up to 60 feet contiguous to the lot for parking as it desires. However, the Tenant may only allow customer vehicles to park on the paved drives and paved parking areas, and shall not park customer vehicles on the grass area. Tenant may use any of its own vehicles needed on the grass only as necessary and exercise care not to damage the grass or surface.

Personal Property Tax, Real Estate Tax and other Taxes

- A. Kenosha County is a tax exempt Wisconsin municipal corporation. If Tenant is a tax exempt organization, (under US Tax Code Sec. 501c 3 or otherwise) or becomes tax exempt prior to August 1, 2024, then it is believed by the parties that no real estate tax will be due. However, if any real estate taxes are required to be paid, or any other tax is required of Landlord, due to the rental of this property herein, the obligation to pay such tax will be entirely upon the Tenant as a payment in addition to the rent due under this lease. Tenant agrees to notify Landlord within 14 business days of receiving any decision of a taxing authority that such property is subject to a tax. Likewise, Landlord agrees to notify Tenant within 14 business days of receiving any decision of a taxing authority that such property is subject to a tax. Tenant agrees to pay all such taxes before they become delinquent, and to pay any late fees interest or penalties, in the event of failure to pay such taxes in a timely manner.
- B. Landlord may, with a written 20 day notice to Tenant, require a deposit by Tenant to the Landlord of a sum sufficient to pay any real estate tax imposed upon such property. Failure to make such a deposit within 30 days of such notice would constitute a material breach of this agreement.

Hours of Operation

For reasons of security Tenant shall provide Landlord with the special hours of operation for premises. For normal operations, the hours will be from 8:30 a.m. to 6 p.m., Monday through Sunday.

Prohibited Uses

Notwithstanding the forgoing, Tenant shall not use the Leased Premises for the purposes of storing, manufacturing, selling, using, or giving a teaching lesson using, any explosives, flammables or other inherently dangerous weapon, substance, chemical, item, thing or device. Tenant shall not conduct or permit any illegal activities upon the premises. Tenant shall not obstruct ingress or egress to the Job Center, and shall not allow accumulation of debris. At the end of the lease term, lot shall be left in an undamaged, orderly and clean condition

Sublease and Assignment

Tenant shall not have the right without Landlord's consent, to assign this Lease. Tenant shall not sublease all or any part of the Leased Premises, or assign this Lease in whole or in part without Landlord's consent. Landlord, in its sole discretion and judgment, may grant or withhold such consent.

Repairs

During the Lease term, Tenant shall make, at Tenant's expense, all repairs to the Leased Premises for repairs caused by the negligence of Tenant, or of Tenant's students or guests. All other necessary repairs shall be made by Landlord at Landlord's expense.

Alterations and Improvements

Tenant shall not make, nor permit to be made, alterations or improvement to the Premises, unless Tenant obtains the written consent of Landlord. Tenant shall not damage, disturb, remove or alter any trees, bushes, plants, grass, flowers or other vegetation on premises. If Landlord permits Tenant to make any alterations or improvements, Tenant shall make the same with requirements the Landlord considers necessary or desirable. Tenant shall promptly repair any damage to the Premises caused by any such alterations or improvements. Any alterations or improvements to the Premises, except movable office furniture or equipment and trade fixtures, shall become a part of the realty and the property of the Landlord and shall not be removed by the tenant.

Insurance/ Indemnity

If the Leased Premises is damaged by fire or other casualty resulting from any act of negligence by Tenant or by any of Tenant's agents, employees or invitees, rent shall not be diminished or abated while such damages are under repair, and Tenant shall be responsible for the costs of repair not covered by insurance.

Tenant shall be responsible, at its expense, for fire and extended coverage insurance on all of its personal property, including removable trade fixtures, located in the Leased Premises.

Tenant and Landlord shall, each at its own expense, maintain a policy or policies of comprehensive general liability insurance with respect to the particular activities of each with the premiums thereon fully paid on or before due date. Such insurance policy shall be issued by a Company authorized to do business in Wisconsin and shall afford minimum protection of not less than \$1,000,000 combined single limit coverage of bodily injury, property damage or combination thereof. Upon request, each party shall provide proof of insurance to the other. Neither party shall cancel or amend the terms of such insurance, without providing the other party 30 days advance written notice.

Signs

Signs shall mean all manner of signs, posters, banners, and display materials of all kinds and description. Tenant shall have the right to place on the Leased Premises, at locations approved by Landlord, signs advertising its purpose which are approved in content by Landlord and permitted by applicable municipal or zoning ordinances, and any private restrictions. No other signs are permitted under this lease. Tenant shall repair all damage to the Leased Premises resulting from the installation or removal of signs installed by Tenant.

Additionally, Tenant shall not post, hang, erect, display or permit any political or campaign sign or message, nor any sign which advertises any private company or commercial product (except its own tree sale business).

Entry

Landlord shall have the right to enter upon the Leased Premises at reasonable hours and given a 2 working days notice to inspect the same, provided Landlord shall not thereby unreasonably interfere with Tenant's business on the Leased Premises.

Notice of Vacate and Joint Inspection before Termination Date.

Tenant shall give written notice to Landlord at least thirty-days (30) prior to vacating the Premises at the end of the Lease Term or should funding cease and shall arrange to meet with landlord for a joint inspection of the Premises prior to vacating. In the event of tenant's failure to give such notice or arrange such joint inspection, Landlord's inspection at or after Tenant's vacating the Premises shall be conclusively deemed correct for purpose of determining Tenants responsibility for repairs and restoration.

Building Rules

Landlord shall have the right to create and amend reasonable rules and regulations necessary or desirable to insure the safety, care and cleanliness of the Premises and the preservation of order and safekeeping of the property. Any amendments to rules and regulations shall be set forth in writing, and shall be discussed with Tenant before being placed into effect.

Damage and Destruction

If the Leased Premises or any part thereof or any appurtenance thereto is so damaged by fire, casualty or structural defects, such damage or defects not being the result of any act of negligence by Tenant or by any of Tenant's agents, employees or invitees, that the same cannot be used for Tenant's purposes, then Tenant shall have the right within ninety (90) days following damage to elect by notice to Landlord to terminate this Lease as of the date of such damage. In the event of minor damage to any part of the Leased Premises, and if such damage does not render the Leased Premises unusable for Tenant's purposes, Landlord shall promptly repair such damage at the cost of the Landlord. In making the repairs called for in this paragraph, Landlord shall not be liable for any delays resulting from strikes, governmental restrictions, inability to obtain necessary materials or labor or other matters which are beyond the reasonable control of Landlord. Tenant shall be relieved from paying rent and other charges during any portion of the Lease term that the Leased Premises are inoperable or unfit for occupancy, or use, in whole or in part, for Tenant's purposes. Rentals and other charges paid in advance for any such periods shall be credited on the next ensuing payments, if any, but if no further payments are to be made, any such advance payments shall be refunded to Tenant. The provisions of this paragraph extend not only to the matters aforesaid, but also to any occurrence which is beyond Tenant's reasonable control and which renders the Leased Premises, or any appurtenance thereto, inoperable or unfit for occupancy or use, in whole or in part, for Tenant's purposes.

Maintenance Routine maintenance of grounds, including grass cutting, will be performed by Landlord. However, snow and ice removal will be the responsibility of the Tenant. Commercial garbage service will be the responsibility of the Tenant.

Quiet Possession

Landlord covenants and warrants that upon performance by Tenant of its obligations hereunder, Landlord will keep and maintain Tenant in exclusive, quiet, peaceable and undisturbed and uninterrupted possession of the Leased Premises during the term of this Lease.

1. As a result of the CTH F Realignment Project, certain properties will need to be acquired by Kenosha County. Other properties currently owned by Kenosha County will not be used in their entirety.
2. Conditions that will exist after the CTH F Realignment Project is complete will support the County disposing of a number of Project area parcels that will add more value to the community as privately-owned.
3. It seems advisable that those Kenosha County owned properties which will not be required for completion of the Project be first offered to adjacent property owners. In the event the County and adjacent property owner are unable to successfully negotiate a buy/sell agreement, the County will pursue other appropriate means to market/sell the property.
4. Kenosha County intends to acquire the property as described and identified on the attached map (Plat Plan Parcel 19, .362 acres) by purchase at fair market value (FMV) consistent with applicable State statutes and all Project funding requirements as part of the CTH F Realignment Project.
5. Kenosha County intends to sell a .5 acre remnant surrounding the north end of the pond located on parcel #60-4-119-161-0102 to attach to said parcel for the same amount as the purchase price for the Project's Plat Plan Parcel 19. Any transfer and/or transaction costs necessary to facilitate this action will be borne by the County. Final dimensions of the approximate .5 acre remnant will be negotiated to ensure adequate clearance for property maintenance activities around the pond's perimeter.
6. Kenosha County agrees to offer the first option to purchase the entire remnant of parcel #85-4-119-161-4211 to the undersigned owner at FMV as determined by an independent, licensed real estate appraiser.
7. Property owner understands and acknowledges that any sale of County owned property is contingent upon approval by the County Board of Supervisors.

**MEMORANDUM OF UNDERSTANDING
BETWEEN
KENOSHA COUNTY HIGHWAY DIVISION
And
Lance & Abbey Gehring
8820 Karow Road
Twin Lakes, WI 53181**

1. As a result of the CTH F Realignment Project certain properties owned by Kenosha County will not be used in their entirety.
2. Conditions that will exist after the CTH F Realignment Project is complete will support the County disposing of a number of Project area parcels that will add more value to the community as privately-owned.
3. It seems advisable that those Kenosha County owned properties which will not be required for completion of the Project be first offered to adjacent property owners at independently appraised fair-market value. In the event the County and adjacent property owner are unable to successfully negotiate a buy/sell agreement, the County will pursue other appropriate means to market/sell the property.
4. A single County-owned parcel, 60-4-119-161-0120 is adjacent to your parcel 60-4-119-161-0720. The County parcel will be approximately 2.82 acres and is located on the west side of the "to be constructed" cul-de-sac located at the north end of Karow Road.
5. This MOU is being provided to you to make you aware of the County's intention to sell parcel 60-4-119-161-0120 after the CTH F Realignment project is complete and your signature below would provide an indication that you would like to exercise the County's granted "first right of refusal" to purchase this property at a time appropriate for disposition.
6. Property owner understands and acknowledges that any sale of County owned property is contingent upon approval by the County Board of Supervisors.

- (9) Discourage development in a floodplain if there is any practicable alternative to locate the activity, use or structure outside of the floodplain.

1.4 TITLE

This ordinance shall be known as the Floodplain Zoning Ordinance for Kenosha County, Wisconsin.

1.5 GENERAL PROVISIONS

(1) AREAS TO BE REGULATED

This ordinance regulates all areas of special flood hazard identified as zones A, AO, AH, A1-30, AE, on the Flood Insurance Rate Map. Additional areas identified on maps approved by the Department of Natural Resources (DNR) and local community may also be regulated under the provisions of this ordinance, where applicable.

(2) OFFICIAL MAPS & REVISIONS

Special Flood Hazard Areas (SFHA) are designated as zones A, A1-30, AE, AH, AO, on the Flood Insurance Rate Maps (FIRMs) based on flood hazard analyses summarized in the Flood Insurance Study (FIS) listed in subd. (a) below. Additional flood hazard areas subject to regulation under this ordinance are identified on maps based on studies approved by the DNR and listed in subd. (b) below. These maps and revisions are on file in the Kenosha County Division of Planning and Development, Kenosha County Center, Bristol, WI.

(3) ESTABLISHMENT OF FLOODPLAIN ZONING DISTRICTS

The flood hazard areas regulated by this ordinance are divided into districts as follows:

- (a) The Floodway District (FW), is the channel of a river or stream and those portions of the floodplain adjoining the channel required to carry the regional floodwaters, within AE Zones as shown on the FIRM, or within A Zones shown on the FIRM when determined according to s. 5.1(5).
- (b) The Floodfringe District (FF) is that portion of a special flood hazard area outside the floodway within AE Zones on the FIRM, or, when floodway limits have been determined according to s. 5.1(5), within A Zones shown on the FIRM.
- (c) The General Floodplain District (GFP) is those areas that may be covered by floodwater during the regional flood in which a floodway boundary has not been delineated on the FIRM and also includes shallow flooding areas identified as AH and AO zones on the FIRM.
- (d) The Flood Storage District (FSD) is that area of the floodplain where storage of floodwaters is calculated to reduce the regional flood discharge.

(4) LOCATING FLOODPLAIN BOUNDARIES

Discrepancies between the exterior boundaries of zones A1-30, AE, AH, or A on the official floodplain zoning map and actual field conditions may be resolved using the criteria in subd (a) or (b) below. If a significant difference exists, the map shall be amended according to s. 8.0 *Amendments*. The zoning administrator can rely on a boundary derived from a profile elevation to grant or deny a land use permit (zoning or construction permit), whether or not a map amendment is required. The zoning administrator shall be responsible for documenting actual pre- development field conditions and the basis upon which the district boundary was determined. Disputes between the zoning administrator and an applicant over the district boundary line shall be settled according to s. 7.3(3) and the criteria in (a) and (b) below. Where the flood profiles are based on established base flood elevations from a FIRM, FEMA must approve any map amendment or revision pursuant to s. 8.0 *Amendments*.

- (a) If flood profiles exist, the map scale and the profile elevations shall determine the district boundary. The regional or base flood elevations shall govern if there are any discrepancies.
- (b) Where flood profiles do not exist for projects, including any boundary of zone A, AO, the location of the boundary shall be determined by the map scale.

(5) REMOVAL OF LANDS FROM FLOODPLAIN

- (a) Compliance with the provisions of this ordinance shall not be grounds for removing land from the floodplain unless it is filled at least two feet above the regional or base flood elevation, the fill is contiguous to land outside the floodplain, and the map is amended pursuant to s. 8.0 *Amendments*.
- (b) The delineation of any of the Floodplain Districts may be revised by the

community where natural or man-made changes have occurred and/or where more detailed studies have been conducted. However, prior to any such change, approval must be obtained from the Wisconsin Department of Natural Resources and Federal Emergency Management Agency. A completed Letter of Map Revision is a record of this approval. The zoning administrator shall not sign a community acknowledgement form unless all criteria set forth in the following paragraphs are met:

1. The land and/or land around the structure must be filled at least two feet above the regional or base flood elevation;
 2. The fill must be contiguous to land outside the floodplain; Applicant shall obtain a shoreland permit, according to Section 12.09, before applying for a LOMR or LOMR-F;
- (c) Removal of lands from the floodplain may also occur by operation of § 87.30(1)(e), Wis. Stat. if a property owner has obtained a letter of map amendment from the federal emergency management agency under 44 C.F.R. 70.

(6) COMPLIANCE

- (a) No structure or use within areas regulated by this ordinance shall hereafter be located, erected, constructed, reconstructed, repaired, extended, converted, enlarged, or altered without full compliance with the terms of these regulations and all other applicable regulations that apply to uses within the jurisdiction of these regulations.
- (b) Failure to obtain a land use permit (zoning or construction permit) shall be a violation of these regulations and shall be punishable in accordance with s. 9.0.
- (c) Land use permit (zoning or construction permit) issued on the basis of plans and applications approved by the zoning administrator authorize only the use, and arrangement, set forth in such approved plans and applications, or amendments thereto if approved by the zoning administrator. Use, arrangement, or construction contrary to that authorized shall be deemed a violation of these regulations and punishable in accordance with s. 9.0.

(7) MUNICIPALITIES AND STATE AGENCIES REGULATED

Unless specifically exempted by law, all cities, villages, towns, and counties are required to comply with this ordinance and obtain all necessary permits. State agencies are required to comply if s. 13.48(13), Stats., applies. The construction, reconstruction, maintenance and repair of state highways and bridges by the Wisconsin Department of Transportation is exempt when s. 30.2022, Stats., applies. Although exempt from a local zoning permit and permit fees, DOT must provide sufficient project documentation and analysis to ensure that the community is in compliance with Federal, State, and local floodplain standards. If a local transportation project is located within a Zone A floodplain and is not a WisDOT project under s. 30.2022, then the road project design documents (including appropriate detailed plans and profiles) may be sufficient to meet the requirements for issuance of a local floodplain permit if the following apply: The applicant provides documentation to the zoning administrator that the proposed project is a culvert replacement or bridge replacement under 20' span at the same location, the project is exempt from a DNR permit under s. 30.123(6)(d), the capacity is not decreased, the top road grade is not raised, and no floodway data is available from a federal, state, or other source. If floodway

data is available in the impacted area from a federal, state, or other source that existing data must be utilized by the applicant in the analysis of the project site.

(8) **ABROGATION AND GREATER RESTRICTIONS**

- (a) This ordinance supersedes all the provisions of any municipal zoning ordinance enacted under s. 59.69, s. 59.692, and 59.694 for counties; or s. 87.30, Stats. which relate to floodplains. A more restrictive ordinance shall continue in full force and effect to the extent of the greater restrictions, but not otherwise.
- (b) This ordinance is not intended to repeal, abrogate or impair any existing deed restrictions, covenants or easements. If this ordinance imposes greater restrictions, the provisions of this ordinance shall prevail.

(9) **INTERPRETATION**

In their interpretation and application, the provisions of this ordinance are the minimum requirements liberally construed in favor of the governing body and are not a limitation on or repeal of any other powers granted by the Wisconsin Statutes. If a provision of this ordinance, required by ch. NR 116, Wis. Adm. Code, is unclear, the provision shall be interpreted in light of the standards in effect on the date of the adoption of this ordinance or in effect on the date of the most recent text amendment to this ordinance.

(10) **WARNING AND DISCLAIMER OF LIABILITY**

The flood protection standards in this ordinance are based on engineering experience and research. Larger floods may occur, or the flood height may be increased by man-made or natural causes. This ordinance does not imply or guarantee that non-floodplain areas or permitted floodplain uses will be free from flooding and flood damages. This ordinance does not create liability on the part of, or a cause of action against, the municipality or any officer or employee thereof for any flood damage that may result from reliance on this ordinance.

(11) **SEVERABILITY**

Should any portion of this ordinance be declared unconstitutional or invalid by a court of competent jurisdiction, the remainder of this ordinance shall not be affected.

(12) **ANNEXED AREAS FOR CITIES AND VILLAGES**

The Kenosha County floodplain zoning provisions in effect on the date of annexation shall remain in effect and shall be enforced by the municipality for all annexed areas until the municipality adopts and enforces an ordinance which meets the requirements of ch. NR 116, Wis. Adm. Code and 44 CFR 59-72, *National Flood Insurance Program* (NFIP). These annexed lands are described on the municipality's official zoning map. County floodplain zoning provisions are incorporated by reference for the purpose of administering this section and are on file in the office of the municipal zoning administrator. All plats or maps of annexation shall show the regional flood elevation and the floodway location.

2.0 GENERAL STANDARDS APPLICABLE TO ALL FLOODPLAIN DISTRICTS

The community shall review all permit applications to determine whether proposed building sites will be reasonably safe from flooding and assure that all necessary permits have been received from those governmental agencies whose approval is required by federal or state law.

- (1) No structures of any type shall be allowed, except for a pole sign in business zoning.

- (2) If a subdivision or other proposed new development is in a mapped floodplain area, the community shall assure that:
 - (a) such proposed subdivision or other proposed new development is consistent with the need to minimize flood damage within the flood-prone area;
 - (b) public utilities and facilities such as sewer, gas, electrical, and water systems are located and constructed to minimize or eliminate flood damage; and
 - (c) adequate drainage is provided to reduce exposure to flood hazards.
- (3) All land division proposals (including manufactured home parks), boundary adjustment proposals, and proposals to combine existing parcels shall include regional flood elevation and floodway data and meet all other requirements in s. 7.1(2).

2.1 HYDRAULIC AND HYDROLOGIC ANALYSES

- (1) No floodplain development for a public highway or transportation project shall:
 - (a) Obstruct flow, defined as development which blocks the conveyance of floodwaters by itself or with other development, causing any increase in the regional flood height; or
 - (b) Cause any increase in the regional flood height due to floodplain storage area lost.
- (2) The zoning administrator shall deny permits for development other than a public highway or transportation project if it is determined the proposed development will obstruct flow or result in the net removal of flood storage capacity within the regulatory floodplain.
- (3) If compensatory storage is created to address the prohibition under s. 2.1(3)(b), the location of the compensatory storage must be outside of and contiguous to the pre-existing regulatory floodplain and the newly-created compensatory storage area shall be included within the regulatory floodplain through an amendment under ss. 1.5(5) and 8.0.

Note: Compensatory storage is not required to offset fill placed in the areas that are shown on the floodplain zoning maps as AE or AO for which the elevation was determined based on a coastal analysis if the areas are not also mapped floodplain areas.

2.2 WATERCOURSE ALTERATIONS

No permit to alter or relocate a watercourse in a mapped floodplain shall be issued until the local official has notified in writing all adjacent municipalities, the Department and FEMA regional offices, and required the applicant to secure all necessary state and federal permits. The standards of s. 2.1 must be met and the flood carrying capacity of any altered or relocated watercourse shall be maintained.

As soon as is practicable, but not later than six months after the date of the watercourse alteration or relocation and pursuant to s. 8.0 *Amendments*, the community shall apply for a Letter of Map Revision (LOMR) from FEMA. Any such alterations must be reviewed and approved by FEMA and the DNR through the LOMC process.

2.3 CHAPTER 30, 31, WIS. STATS., DEVELOPMENT

Development which requires a permit from the Department, under chs. 30 and 31, Stats., such as docks, piers, wharves, bridges, culverts, dams and navigational aids, may be allowed if the necessary permits are obtained and amendments to the floodplain zoning ordinance are made according to s. 8.0 *Amendments*.

2.4 PUBLIC OR PRIVATE CAMPGROUNDS

Public or private campgrounds shall have a low flood damage potential and shall meet the following provisions:

- (1) The campground is approved by the Department of Agriculture, Trade and Consumer Protection;
- (2) A land use permit (zoning or construction permit) for the campground is issued by the zoning administrator;
- (3) The character of the river system and the campground elevation are such that a 72-hour warning of an impending flood can be given to all campground occupants;
- (4) There is an adequate flood warning procedure for the campground that offers the minimum notice required under this section to all persons in the campground. This procedure shall include a written agreement between the campground owner, the floodplain zoning agency or zoning administrator, the municipal emergency government coordinator and the chief law enforcement official which specifies the flood elevation at which evacuation shall occur, personnel responsible for monitoring flood elevations, types of warning systems to be used and the procedures for notifying at-risk parties, and the methods and personnel responsible for conducting the evacuation;
- (5) This agreement shall be for no more than one calendar year, at which time the agreement shall be reviewed and updated - by the officials identified in sub. (4) - to remain in compliance with all applicable regulations, including those of the state Department of Agriculture, Trade and Consumer Protection and all other applicable regulations;
- (6) All mobile recreational vehicles placed on site must meet one of the following:
 - (a) Be fully licensed, if required, and ready for highway use; or
 - (b) Not occupy any site in the campground for more than 180 consecutive days, at which time the recreational vehicle must be removed from the floodplain for a minimum of 24 hours; or
 - (c) Meet the requirements in either s. 3.0, 4.0 or 5.1, for the floodplain district in which the structure is located;

A mobile recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick-disconnect utilities and security devices and has no permanently attached additions.
- (7) All camping units that remain on site for more than 30 days shall be issued a limited authorization by the campground operator, a written copy of which is kept on file at the campground. Such authorization shall allow placement of a camping unit consistent with 2.4(6) and shall ensure compliance with all the provisions of this section;

- (8) The municipality shall monitor the limited authorizations issued by the campground operator to assure compliance with the terms of this section;
- (9) The campground shall have signs clearly posted at all entrances warning of the flood hazard and the procedures for evacuation when a flood warning is issued; and
- (10) All service facilities, including but not limited to refuse collection, electrical service, gas lines, propane tanks, sewage systems and wells shall be properly anchored and placed at or floodproofed to the flood protection elevation; and
- (11) Standards for structures in a campground:
 - (a) All structures must comply with section 2.4 or meet the applicable requirements in ss. 3.0, 4.0 or 5.1, for the floodplain district in which the structure is located;
 - (b) Deck / landing-a portable landing may be allowed for a camping unit for each entry provided that the landing is not permanently attached to the ground or camping unit, is no more than 200 square feet in size, shall be portable, contain no walls or roof, and can be removed from the campground by a truck and/or trailer. Sections of such portable landings may be placed together to form a single deck not greater than 200 square feet at one entry point. Provisions for the removal of these temporary landings during flood events must be addressed within the written agreement with the municipality compliant with section 2.4(4). Any such deck/landing structure may be constructed at elevations lower than the flood protection elevation but must not obstruct flow of flood waters or cause any increase in flood levels during the occurrence of the regional flood.
 - (c) Decks/patios that are constructed completely at grade may be allowed, but must also comply with applicable shoreland zoning standards.
 - (d) Camping equipment and appurtenant equipment in the campground may be allowed provided that the equipment is not permanently attached to the ground or camping unit, is not used as a habitable structure, and must not obstruct flow of flood waters or cause any increase in flood levels during the occurrence of the regional flood. Provisions for the removal of this equipment during flooding events shall be addressed within the written agreement with the municipality compliant with section 2.4(4).
 - (e) Once a flood warning in the written agreement has been issued for the campground, the campground owner or the designated operator shall ensure that all persons, camping units, decks, camping equipment and appurtenant equipment in the campground shall be evacuated within the timelines specified within the written agreement with the municipality compliant with section 2.4(4).
- (12) A land use permit (zoning or construction permit) shall be obtained as provided under 7.1(2) before any development; repair, modification or addition to an existing structure; or change in the use of a building or structure, including sewer and water facilities, may be initiated.

5.0 OTHER FLOODPLAIN DISTRICTS

5.1 GENERAL FLOODPLAIN DISTRICT (GFP)

(1) APPLICABILITY

The provisions for the General Floodplain District shall apply to development in all floodplains mapped as A, AO, AH, and in AE zones within which a floodway is not delineated on the Flood Insurance Rate Maps identified in s. 1.5(2)(a),

FLOODWAY BOUNDARIES

For proposed development in a zone A, or in a zone AE within which a floodway is not delineated on the Flood Insurance Rate Map identified in s. 1.5(2)(a), the boundaries of the regulatory floodway shall be determined pursuant to s. 5.1(5). If the development is proposed to encroach upon the regulatory floodway or the regulatory floodfringe, the development is subject to the standards of s 3.0.

(2) PERMITTED USES

Pursuant to s. 5.1(5) it shall be determined whether the proposed use is located within the floodway or floodfringe. Those uses permitted in the Floodway and Floodfringe Districts (s. 3.2) are allowed within the General Floodplain District, according to the standards of s. 5.1(4) provided that all permits or certificates

required under s. 7.1 have been issued.

(3) STANDARDS FOR DEVELOPMENT IN THE GENERAL FLOODPLAIN DISTRICT
Section 3.0 applies to floodway and floodfringe areas, determined to pursuant to 5.1(5).

- (a) No new structures allowed except for a pole sign in business.
- (b) In AO/AH zones, provide adequate drainage paths to guide floodwaters around structures.
- (c) All development in zones AO and zone AH shall meet the requirements of s. 4.0.

(4) DETERMINING FLOODWAY AND FLOODFRINGE LIMITS

Upon receiving an application for development within zone A, or within a zone AE where a floodway has not been delineated on the Flood Insurance Rate Maps, the zoning administrator shall:

- (a) Require the applicant to submit two copies of an aerial photograph or a plan which shows the proposed development with respect to the general floodplain district limits, stream channel, and existing floodplain developments, along with a legal description of the property, fill limits and elevations, building floor elevations and flood proofing measures; and the flood zone as shown on the FIRM.
- (b) Require the applicant to furnish any of the following information deemed necessary by the Department to evaluate the effects of the proposal upon flood height and flood flows, regional flood elevation and to determine floodway boundaries.
- (c) A Hydrologic and Hydraulic Study as specified in s. 7.1(2)(c).

Plan (surface view) showing elevations or contours of the ground; pertinent structure, fill or storage elevations; size, location and layout of all proposed and existing structures on the site; location and elevations of streets, water supply, and sanitary facilities; soil types and other pertinent information;
 - 2. Specifications for building construction and materials, floodproofing, filling, dredging, channel improvement, storage, water supply and sanitary facilities.

5.2 FLOODSTORAGE DISTRICT

The flood storage district delineates that portion of the floodplain where storage of floodwaters has been taken into account and is relied upon to reduce the regional flood discharge. The district protects the flood storage areas and assures that any development in the storage areas will not decrease the effective flood storage capacity which would cause higher flood elevations.

(1) APPLICABILITY

The provisions of this section apply to all areas within the Flood Storage District (FSD), as shown on the official floodplain zoning maps.

(2) PERMITTED USES

Any use or development which occurs in a flood storage district must meet the applicable requirements in s. 4.3.

(3) **STANDARDS FOR DEVELOPMENT IN FLOOD STORAGE DISTRICTS**

- (a) Development in a flood storage district shall not cause an increase equal or greater than 0.00 of a foot in the height of the regional flood.
- (b) No development shall be allowed which removes flood storage volume unless an equal volume of storage as defined by the pre-development ground surface and the regional flood elevation shall be provided in the immediate area of the proposed development to compensate for the volume of storage, which is lost, (compensatory storage). Excavation below the groundwater table is not considered to provide an equal volume of storage.
- (c) If compensatory storage cannot be provided, the area may not be developed unless the entire area zoned as flood storage district – on this waterway – is rezoned to the floodfringe district. This must include a revision to the floodplain study and map done for the waterway to revert to the higher regional flood discharge calculated without floodplain storage, as per s. 8.0 *Amendments* of this ordinance.
- (d) No area may be removed from the flood storage district unless it can be shown that the area has been filled to the flood protection elevation and is contiguous to other lands lying outside of the floodplain.

6.0 NONCONFORMING USES

6.1 GENERAL

(1) **APPLICABILITY**

- (a) The standards in this section shall apply to all uses and buildings that do not conform to the provisions contained within a floodplain zoning ordinance or with s. 87.30, Stats. and §§ NR 116.12-14, Wis. Adm. Code and 44 CFR 59-72., these standards shall apply to all modifications or additions to any nonconforming use or structure and to the use of any structure or premises which was lawful before the passage of this ordinance or any amendment thereto. A party asserting existence of a lawfully established nonconforming use or structure has the burden of proving that the use or structure was compliant with the floodplain zoning ordinance in effect at the time the use or structure was created.
 - (b) As permit applications are received for, modifications, or substantial improvements to nonconforming buildings in the floodplain, municipalities shall develop a list of those nonconforming buildings, their equalized assessed value and a list of the costs of those activities associated with changes to those buildings.
- (2) The existing lawful use of a structure or its accessory use which is not in conformity with the provisions of this ordinance may continue subject to the following conditions:
- (a) No modifications to a nonconforming use or structure shall be permitted unless they comply with this ordinance. The word "modification" includes, but is not limited to, any alteration, , modification, structural repair, of any such existing use, structure or accessory structure or use. Maintenance is not considered a modification; this includes painting, decorating, paneling and other nonstructural components and the maintenance, repair or replacement of existing private sewage or water supply systems or connections to public utilities. Any costs associated with the repair of a damaged structure are not considered maintenance

- (b) If a nonconforming use or the use of a nonconforming structure is discontinued for 12 consecutive months, it is no longer permitted and any future use of the property, and any structure or building thereon, shall conform to the applicable requirements of this ordinance;
 - (c) The municipality shall keep a record which lists all nonconforming uses and nonconforming structures, their equalized assessed value, the cost of all modifications or additions which have been permitted, and the percentage of the structure's total current value those modifications represent;
 - (d) No additions of any type shall be allowed. Modification to any nonconforming structure or any structure with a nonconforming use, which over the life of the structure would equal or exceed 50% of its equalized assessed value, shall not be allowed.
 - (e) Change in roof pitch may be allowed by a land use permit (zoning or construction permit) if the total cost of the work does not equal or exceed 50% of the structure's equalized assessed value, at the time the structure became nonconforming, over the life of the structure.
 - (f) No maintenance on a per event basis to any nonconforming structure or any structure with a nonconforming use, the cost of which would equal or exceed 50% of its present equalized assessed value, shall be allowed unless the entire structure is permanently changed to a conforming structure with a conforming use in compliance with the applicable requirements of this ordinance. Contiguous dry land access must be provided for residential and commercial uses in compliance with s. 4.3(1). Maintenance to any nonconforming structure, which does not exceed 50% of its present equalized assessed value on a per event basis, does not count against the cumulative calculations over the life of the structure for substantial improvement calculations.
 - (g) If on a per event basis the total value of the work being done under (d) and (f) equals or exceeds 50% of the equalized assessed value the work shall not be permitted.
 - (h) Except as provided in subd. (h), if any nonconforming structure or any structure with a nonconforming use is destroyed or is substantially damaged by flood, it cannot be replaced, reconstructed or rebuilt.
 - (i) For nonconforming buildings that are substantially damaged or destroyed by a nonflood disaster, the repair or reconstruction of any such nonconforming building shall not be permitted.
- (3) A nonconforming historic structure may be altered if the alteration will not preclude the structure's continued designation as a historic structure, the alteration will comply with s. 3.3 (1), flood resistant materials are used, and construction practices and floodproofing methods that comply with s. 7.5 are used. Repair or rehabilitation of historic structures shall be exempt from the development standards of s. 6.1 (2)(h)1 if it is determined that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and is the minimum necessary to preserve the historic character and design of the structure.
- (4) Floodproofing which elevates the first floor of a nonconforming structure may be allowed by a land use permit (zoning or construction permit); the entire structure shall be floodproofed by means other than the use of fill, in compliance with the standards set forth in Section 7.5

of this ordinance, to the flood protection elevation, which is 2 feet above the base flood elevation

6.2 FLOODWAY DISTRICT

- (1) No modification or addition shall be allowed to any nonconforming structure or any structure with a nonconforming use in the Floodway District, unless such modification or addition:
 - (a) Has been granted a permit or variance which meets all ordinance requirements;
 - (b) Meets the requirements of s. 6.1;
 - (c) Shall not increase the obstruction to flood flows or regional flood height;
 - (d) Any addition to the existing structure shall be floodproofed, pursuant to s. 7.5, by means other than the use of fill, to the flood protection elevation; and
 - (e) If any part of the foundation below the flood protection elevation is enclosed, the following standards shall apply:
 1. The enclosed area shall be designed by a registered architect or engineer to allow for the efficient entry and exit of flood waters without human intervention. A minimum of two openings must be provided with a minimum net area of at least one square inch for every one square foot of the enclosed area. The lowest part of the opening can be no more than 12 inches above the adjacent grade;
 2. The parts of the foundation located below the flood protection elevation must be constructed of flood-resistant materials;

- (2) No new on-site sewage disposal system, or addition to an existing on-site sewage disposal system, except where an addition has been ordered by a government agency to correct a hazard to public health, shall be allowed in the Floodway District. Any replacement, repair or maintenance of an existing on-site sewage disposal system in a floodway area shall meet the applicable requirements of all municipal ordinances, s. 7.5(3) and ch. SPS 383, Wis. Adm. Code.
- (3) No new well or modification to an existing well used to obtain potable water shall be allowed in the Floodway District. Any replacement, repair or maintenance of an existing well in the Floodway District shall meet the applicable requirements of all municipal ordinances, s. 7.5(3) and chs. NR 811 and NR 812, Wis. Adm. - (2) Where compliance with the provisions of subd. (1) would result in unnecessary hardship and only where the structure will not be used for human habitation or be associated with a high flood damage potential, the Board of Appeals, using the procedures established in s. 7.3, may grant a variance from those provisions of subd. (1) for modifications or additions using the criteria listed below. Modifications or additions which are protected to elevations lower than the flood protection elevation may be permitted if:

a. Hydrology

- i. The appropriate method shall be based on the standards in ch. NR 116.07(3), Wis. Admin. Code, *Hydrologic Analysis: Determination of Regional Flood Discharge*.

b. Hydraulic modeling

The regional flood elevation shall be based on the standards in ch. NR 116.07(4), Wis. Admin. Code, *Hydraulic Analysis: Determination of Regional Flood Elevation* and the following:

- i. determination of the required limits of the hydraulic model shall be based on detailed study information for downstream structures (dam, bridge, culvert) to determine adequate starting WSEL for the study.
- ii. channel sections must be surveyed.
- iii. minimum four-foot contour data in the overbanks shall be used for the development of cross section overbank and floodplain mapping.
- iv. a maximum distance of 500 feet between cross sections is allowed in developed areas with additional intermediate cross sections required at transitions in channel bottom slope including a survey of the channel at each location.
- v. the most current version of HEC-RAS shall be used.
- vi. a survey of bridge and culvert openings and the top of road is required at each structure.
- vii. additional cross sections are required at the downstream and upstream limits of the proposed development and any necessary intermediate locations based on the length of the reach if greater than 500 feet.
- viii. standard accepted engineering practices shall be used when assigning

parameters for the base model such as flow, Manning's N values, expansion and contraction coefficients or effective flow limits. The base model shall be calibrated to past flooding data such as high water marks to determine the reasonableness of the model results. If no historical data is available, adequate justification shall be provided for any parameters outside standard accepted engineering practices.

- ix. the model must extend past the upstream limit of the difference in the existing and proposed flood profiles in order to provide a tie-in to existing studies. The height difference between the proposed flood profile and the existing study profiles shall be no more than 0.00 feet.

c. Mapping

A work map of the reach studied shall be provided, showing all cross-section locations, floodway/floodplain limits based on best available topographic data, geographic limits of the proposed development and whether the proposed development is located in the floodway.

- i. If the proposed development is located outside of the floodway, then it is determined to have no impact on the regional flood elevation.
- ii. If any part of the proposed development is in the floodway, it must be added to the base model to show the difference between existing and proposed conditions. The study must ensure that all coefficients remain the same as in the existing model, unless adequate justification based on standard accepted engineering practices is provided.

2. Zone AE Floodplains

a. Hydrology

If the proposed hydrology will change the existing study, the appropriate method to be used shall be based on ch. NR 116.07(3), Wis. Admin. Code, *Hydrologic Analysis: Determination of Regional Flood Discharge*.

b. Hydraulic model

The regional flood elevation shall be based on the standards in ch. NR 116.07(4), Wis. Admin. Code, *Hydraulic Analysis: Determination of Regional Flood Elevation* and the following:

i. Duplicate Effective Model

The effective model shall be reproduced to ensure correct transference of the model data and to allow integration of the revised data to provide a continuous FIS model upstream and downstream of the revised reach. If data from the effective model is available, models shall be generated that duplicate the FIS profiles and the elevations shown in the Floodway Data Table in the FIS report to within 0.1 foot.

ii. Corrected Effective Model.

The Corrected Effective Model shall not include any man-made physical changes since the effective model date but shall import the model into the most current version of HEC-RAS for Department review.

iii. Existing (Pre-Project Conditions) Model.

The Existing Model shall be required to support conclusions about the actual impacts of the project associated with the Revised (Post-Project) Model or to establish more up-to-date models on which to base the Revised (Post-Project) Model.

iv. Revised (Post-Project Conditions) Model.

The Revised (Post-Project Conditions) Model shall incorporate the Existing Model and any proposed changes to the topography caused by the proposed development. This model shall reflect proposed conditions.

v. All changes to the Duplicate Effective Model and subsequent models must be supported by certified topographic information, bridge plans, construction plans and survey notes.

vi. Changes to the hydraulic models shall be limited to the stream reach for which the revision is being requested. Cross sections upstream and downstream of the revised reach shall be identical to those in the effective model and result in water surface elevations and top widths computed by the revised models matching those in the effective models upstream and downstream of the revised reach as required. The Effective Model shall not be truncated.

c. Mapping

Maps and associated engineering data shall be submitted to the Department for review which meet the following conditions:

i. Consistency between the revised hydraulic models, the revised floodplain and floodway delineations, the revised flood profiles, topographic work map, annotated FIRMs and/or Flood Boundary Floodway Maps (FBFMs), construction plans, bridge plans.

ii. Certified topographic map of suitable scale, contour interval, and a planimetric map showing the applicable items. If a digital version of the map is available, it may be submitted in order that the FIRM may be more easily revised.

iii. Annotated FIRM panel showing the revised 1% and 0.2% annual chance floodplains and floodway boundaries.

iv. If an annotated FIRM and/or FBFM and digital mapping data (GIS or CADD) are used then all supporting documentation or metadata must be included with the data submission along with the Universal Transverse Mercator (UTM) projection and State Plane Coordinate System in accordance with FEMA mapping specifications.

v. The revised floodplain boundaries shall tie into the effective floodplain boundaries.

vi. All cross sections from the effective model shall be labeled in accordance with the effective map and a cross section lookup table shall be included to relate to the model input numbering scheme.

vii. Both the current and proposed floodways shall be shown on the map.

viii. The stream centerline, or profile baseline used to measure stream distances in the model shall be visible on the map.

(d) EXPIRATION

All permits issued under the authority of this ordinance shall expire no more than

180 days after issuance. The permit may be extended for a maximum of 180 days for good and sufficient cause. If the permitted work has not started within 180 days of the permit date, the development must comply with any regulation, including any revision to the FIRM or FIS, that took effect after the permit date.

- (b) Variances - Hear and decide, upon appeal, variances from the ordinance standards.

(2) APPEALS TO THE BOARD

- (a) Appeals to the board may be taken by any person aggrieved, or by any officer or department of the municipality affected by any decision of the zoning administrator or other administrative officer. Such appeal shall be taken within 30 days unless otherwise provided by the rules of the board, by filing with the official whose decision is in question, and with the board, a notice of appeal specifying the reasons for the appeal. The official whose decision is in question shall transmit to the board all records regarding the matter appealed.

(b) NOTICE AND HEARING FOR APPEALS INCLUDING VARIANCES

- 1. Notice - The board shall:

- a. Fix a reasonable time for the hearing;
- b. Publish adequate notice pursuant to Wisconsin Statutes, specifying the date, time, place and subject of the hearing; and
- c. Assure that notice shall be mailed to the parties in interest and the Department Regional office at least 10 days in advance of the hearing.

- 2. Hearing - Any party may appear in person or by agent. The board shall:

- a. Resolve boundary disputes according to s. 7.3(3);
- b. Decide variance applications according to s. 7.3(4); and
- c. Decide appeals of permit denials according to s. 7.4.

- 3. Be a written determination signed by the chairman or secretary of the Board;

4. State the specific facts which are the basis for the Board's decision;
5. Either affirm, reverse, vary or modify the order, requirement, decision or determination appealed, in whole or in part, dismiss the appeal for lack of jurisdiction or grant or deny the variance application; and
6. Include the reasons for granting an appeal, describing the hardship demonstrated by the applicant in the case of a variance, clearly stated in the recorded minutes of the Board proceedings.

(3) BOUNDARY DISPUTES

The following procedure shall be used by the Board in hearing disputes concerning floodplain district boundaries:

- (a) If a floodplain district boundary is established by approximate or detailed floodplain studies, the flood elevations or profiles shall prevail in locating the boundary.
- (b) The person contesting the boundary location shall be given a reasonable opportunity to present arguments and technical evidence to the Board; and
- (c) If the boundary is incorrectly mapped, the Board should inform the zoning committee or the person contesting the boundary location to petition the governing body for a map amendment according to s. 8.0 *Amendments*.

(4) VARIANCE

- (a) The Board may, upon appeal, grant a variance from the standards of this ordinance if an applicant convincingly demonstrates that:
 1. Literal enforcement of the ordinance will cause unnecessary hardship;
 2. The hardship is due to adoption of the floodplain ordinance and unique property conditions, not common to adjacent lots or premises. In such case the ordinance or map must be amended;
 3. The variance is not contrary to the public interest; and
 4. The variance is consistent with the purpose of this ordinance in s. 1.3.
- (b) In addition to the criteria in subd. (a), to qualify for a variance under FEMA regulations, the Board must find that the following criteria have been met:
 1. The variance shall not cause any increase in the regional flood elevation;
 2. The applicant has shown good and sufficient cause for issuance of the variance;
 3. Failure to grant the variance would result in exceptional hardship;
 4. Granting the variance will not result in additional threats to public safety, extraordinary expense, create a nuisance, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances;
 5. The variance granted is the minimum necessary, considering the flood hazard, to afford relief.
- (c) A variance shall not:

1. Grant, extend or increase any use prohibited in the zoning district;
 2. Be granted for a hardship based solely on an economic gain or loss;
 3. Be granted for a hardship which is self-created.
 4. Damage the rights or property values of other persons in the area;
 5. Allow actions without the amendments to this ordinance or map(s) required in s. 8.0 *Amendments*; and
 6. Allow any alteration of an historic structure, including its use, which would preclude its continued designation as an historic structure.
- (d) When a floodplain variance is granted the Board shall notify the applicant in writing that it may increase risks to life and property and flood insurance premiums could increase up to \$25.00 per \$100.00 of coverage. A copy shall be maintained with the variance record.

7.4 TO REVIEW APPEALS OF PERMIT DENIALS

- (1) The Zoning Agency (s. 7.2) or Board shall review all data related to the appeal. This may include:
 - (a) Permit application data listed in s. 7.1(2);
 - (b) Floodway/floodfringe determination data in s. 5.1(5);
 - (c) Data listed in s. 3.3(1)(b) where the applicant has not submitted this information to the zoning administrator; and
 - (d) Other data submitted with the application or submitted to the Board with the appeal.
- (2) For appeals of all denied permits the Board shall:
 - (a) Follow the procedures of s. 7.3;
 - (b) Consider zoning agency recommendations; and
 - (c) Either uphold the denial or grant the appeal.
- (3) For appeals concerning increases in regional flood elevation the Board shall:
 - (a) Uphold the denial where the Board agrees with the data showing an increase in flood elevation. Increases may only be allowed after amending the flood profile and map and all appropriate legal arrangements are made with all adversely affected property owners as per the requirements of s. 8.0 *Amendments*; and
 - (b) Grant the appeal where the Board agrees that the data properly demonstrates that the project does not cause an increase provided no other reasons for denial exist.

7.5 FLOODPROOFING STANDARDS

- (1) No permit or variance shall be issued for a principal structure to be floodproofed by means of elevating not on fill and designed to be watertight below the regional flood elevation until the applicant submits a plan meeting the following criteria: Floodproofing is not an alternative to the development standards in ss. 2.0, 3.0, , 5.1, or 5.3. (revisit

when renumbered)
