## NEWS RELEASE

April 3, 2013

### **Work Starting on County Trunk Highway “G” (30<sup>th</sup> Avenue) between 18<sup>th</sup> Street and 22<sup>nd</sup> Street in the City of Kenosha**

Kenosha County announces the beginning of work on County Trunk Highway “G” (30<sup>th</sup> Avenue) between 18<sup>th</sup> Street and 22<sup>nd</sup> Street in the City of Kenosha. The project will begin on Monday April 8, 2013.

The segment of 30<sup>th</sup> Avenue under construction will be closed to through traffic. However, the intersection of 30<sup>th</sup> Avenue and 18<sup>th</sup> Street will remain open to traffic. The detour route for all traffic, except trucks, is 18<sup>th</sup> Street – 22<sup>nd</sup> Avenue – 27<sup>th</sup> Street. The detour route for all trucks is 18<sup>th</sup> Street – 22<sup>nd</sup> Avenue – Washington Road. All trucks are prohibited from travel on 27<sup>th</sup> Street between 30<sup>th</sup> Avenue and 22<sup>nd</sup> Avenue. Access to all residents, businesses and farms along the closed segment of 30<sup>th</sup> Avenue will be maintained. Motorists are advised to use caution when driving in the vicinity of this project and on the detour routes.

The contractor for the project is Zignego Company, of Waukesha Wisconsin. The contract amount for the project is \$1,634,344. This is the second phase of a two year project improving 30<sup>th</sup> Avenue to current design standards. The project will be similar to the first phase of the project located on 30<sup>th</sup> Avenue just north of 18<sup>th</sup> Street that was completed in 2012. This year, the existing two lane road will also be converted to a four lane urban street including curb & gutter, a multi-use path on the east side of the road, sidewalk on the west side of road, street lights and extensive storm sewer facilities

The estimated completion date of the project is July 8, 2013.
