

Eligibility Requirements

- Must be 18 or older and live in Kenosha County.
- Diagnosed with mental health and/or substance use disorder(s).
- Past or present convictions must not be sexually assaultive in nature.
- Convicted of/or current charges of non-violent crimes.
- Individuals with charges or convictions of Delivery of Drugs do not qualify, however there are exceptions that will be considered case by case.
- Must voluntarily agree to abide by the Treatment Court Rules (see Participant Agreement).
- Must be facing a minimum of 2 or more years at sentencing.
- Alternatives to Revocation (ATR'S) and Deferred Prosecution Agreements.

How to Apply for Treatment Court

- Individuals that meet initial eligibility requirements are referred by their Defense Attorney and/or Probation Agent to the Treatment Court Coordinator.
- This referral is then screened by the Coordinator and Assistant District Attorney for legal as well as treatment history to determine if eligible for further assessment.
- If deemed appropriate they will be assessed by a representative from Oakwood Clinical Associates. This assessment will take place in jail if individual is in custody. If they are out of custody it is their responsibility to schedule and attend the assessment.
- Once the assessment is completed the Treatment Court Team will convene and decide whether the individual is appropriate for the program. If so, they will set a date for sentencing into the Treatment Court Program.

Kenosha County Treatment Court

Mission Statement

To enhance public safety and personal recovery, as well as participant accountability by providing intensive supervision, evidence-based treatment and cost-effective services to convicted individuals who live with mental health and/or substance use disorders with the goal of reducing recidivism thereby increasing quality of life for the citizens of Kenosha County.

Treatment Services

Treatment consists of assessment and treatment planning, individual and/or group counseling for mental health and/or substance use disorders, regular attendance at peer recovery groups and assistance with meeting individual needs (i.e.; relationships, education, life skills, parenting, finances and employment).

MRT (Moral Reconnection Therapy) A cognitive-behavioral group for participants focused on enhanced moral reasoning, better decision making and more appropriate behavior.

Women's Trauma Group A woman centered, skill based, trauma group that focuses on the following: safety, empowerment, and the mind-body connection.

Men's Trauma Group A male centered, skill-based trauma group that focuses on the following: understanding the physical response, impact on relationships and recovery.

Thinking for Good A program designed to address specific thoughts, attitudes and beliefs typically held by people who perform antisocial behavior.

CCS Program A program focused on client hope, healing, empowerment and connections in life. Participants are encouraged to take an active role in their recovery. Service providers encourage, facilitate and help increase the participants abilities to self-manage recovery in ways that are meaningful to the participant.

Recovery Coach Services Non-clinical services intended to aid individuals in establishing and maintaining individual and family recovery from mental health and substance use disorders to improve the quality of recovery.
