**MUNICIPAL LEADERS ISSUE CALL TO ACTION: TAKE ONLINE SPEED TEST**

*Officials throughout Kenosha County ask residents to take test,  
help attract broadband investment for faster internet*

**KENOSHA, WIS.** — Municipal leaders throughout Kenosha County are encouraging residents and business owners to take a brief online speed test to help secure investments for faster local internet service. The test is available through the end of the year and is available to Kenosha County residents and businesses at [www.kenoshacounty.org/quickconnect](http://www.kenoshacounty.org/quickconnect).

“The test takes less than a minute to complete but can have a major impact on the future of broadband infrastructure in our communities,” said Jason Peters, Administrator of the Village and Town of Somers. “The data secured through the test will help our state and federal representatives make decisions to ensure our residents have greater access to better internet for work, school, and home.”

If data collected from the speed test indicates that Kenosha County residents have slow internet connectivity, internet service providers who serve the County may be eligible to receive state and federal grants to improve broadband infrastructure.

“This is an effective way to help the effort to secure fast, reliable connectivity,” said John Holloway, Chairman of the Town of Paris. “With one quick online test, Kenosha County residents and businesses can help provide solid information that can help attract investment that could transform our broadband infrastructure countywide.”

Individuals should take the speed test at their place of residence by visiting [www.kenoshacounty.org/quickconnect](http://www.kenoshacounty.org/quickconnect) and using a Wi-Fi connection — not a cellular connection or personal hotspot.

“This is an incredible opportunity,” said Randy Kerkman, Administrator of the Village of Bristol. “Together we can position the County’s broadband infrastructure to best serve the needs of our community today and well into the future.”

For more information, and to take the test, please visit: [www.kenoshacounty.org/quickconnect](http://www.kenoshacounty.org/quickconnect).
