COMMITTEE HIGHLIGHTS:

- Healthy Lifestyles Committee:
 - o Increased participation in the Corporate Cup Event.
 - o Participation in the annual Kenosha County Health Fair and Screening Event.
- KRW Tri-County Tobacco Free Coalition:
 - o Continued to work with landlords to promote smoke-free multi-unit housing. Conducted education on other tobacco products (OTP's) and lobbied for tax parity for OTP's.
 - o Kenosha County WI WINS – 101 checks with 100% compliance.
- Multi-Use Trail Committee:
 - o Developed and distributed the Comprehensive Bike Plan for Kenosha County and coordinated a County Multi-Use Trail Committee.
- Healthy Wisconsin Leadership Institute (HWLI) Food System Project:
 - o Includes seven counties that are developing a statewide coalition to look at food system issues.
 - o Ultimately the group would like Wisconsin to develop a statewide charter that would support efforts to address issues ranging from farm to school to food equity.
 - o Kenosha County is focusing on food security and developing a video for the HWLI.

Individuals served by Kenosha County's mental health and substance abuse programs will reflect the diversity of the community.	By 2020, the percent of Hispanic individuals represented in Kenosha County's community-based mental health and substance abuse services will increase to 10%.	7% (2010)	9 % of 2016 contacts to the Mental Health & Substance Resource Center and 10% of CSP/CCS participants identified as Hispanic	Kenosha Human Development Services client tracking system
Quality of life will be improved for persons with mental illness.	By 2020, psychiatric hospitalization rates will be reduced to 6.3/1,000 population. <i>Note: Assumes a corresponding increase in preventive services.</i>	7.6/1,000 (2008)	8.5/1,000 (2014)	WI Dept. of Health Services Health Profiles
	By 2020, reduce the percent of Kenosha County residents who report feeling sad, blue or depressed to 6% of the population.	7% (2008)	6% (2016)	Kenosha County Community Health Survey
Reduce the incidence of binge drinking in Kenosha County.	By 2020, reduce the percent of adults who report being binge drinkers to 18%.	23% (2008)	30% (2016)	Kenosha County Community Health Survey

Case Management & Recovery Services for Adults with Mental Illness	2012	2013	2014	2015	2016
Community Support Program (CSP) Participants	180	168	178	182	192
Comprehensive Community Services (CCS) Participants	75	88	90	123	203
Total	255	256	268	305	395

HEALTHY PEOPLE KENOSHA COUNTY 2020

COMMITTEE HIGHLIGHTS:

- Mental Health Committee:
 - Focusing on increasing mental health providers in Kenosha County.
 - Advocacy against Medicaid cuts that would affect persons with mental illness and for relief of the cost to counties that is caused by the exclusion of persons 22-64 years of age from Medicaid coverage in institutes of mental disease.
 - Community-based mental health services for children and adults are being significantly expanded through the formation of a Kenosha/Racine consortium for Comprehensive Community Services (CCS). CCS is a strength-based, recovery oriented, Medicaid funded intervention involving case facilitation, peer support, vocational services, counseling, medication management and other services. Enrollments for CCS is increasing.
 - The KARE Center will be expanded in a new facility from 11 to 16 beds effective 2018.

HEALTHY PEOPLE KENOSHA COUNTY 2020

Injury Prevention Committee

HEALTHIEST WISCONSIN 2020 FOCUS AREA

- Injury and Violence

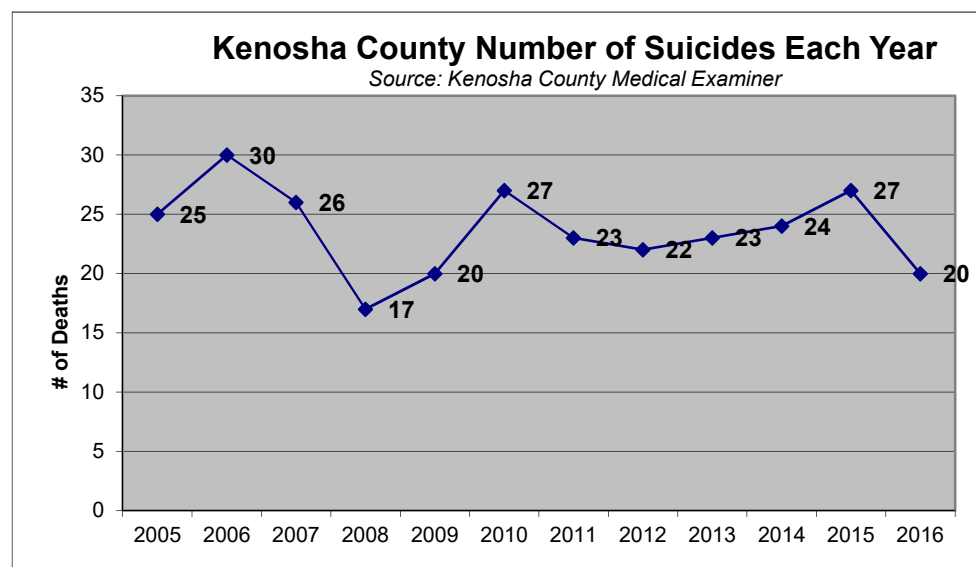

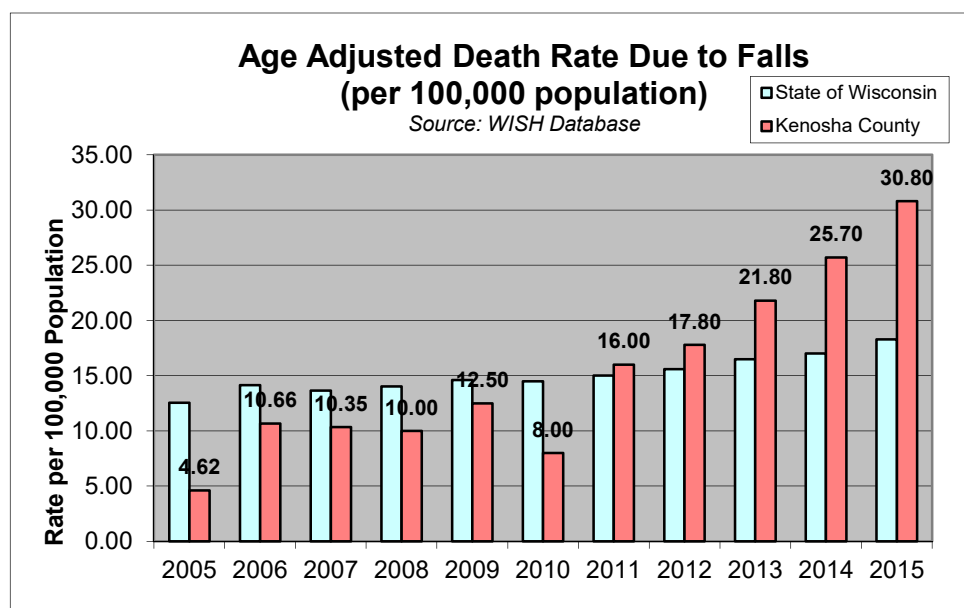

2020 GOALS	2020 OBJECTIVES	BASELINE	CURRENT STATUS	DATA SOURCE
Reduce access to lethal means.	By 2020, the suicide death rate per 100,000 population in Kenosha County will decrease to 8/100,000 (10 year average).	15.8/100,000 (2010)	12.1/100,000 (2016)	WISH Database/Kenosha Medical Examiner's Office
Reduce the number of injuries and deaths related to motor vehicle crashes.	By 2020, the Kenosha County motor vehicle crash death rate per 100,000 population will decrease to 5/100,000 (10 year average).	8.5/100,000 (2010)	10.9/100,000 (2016)	WI Department of Transportation Statistics
Reduce the number injuries and deaths related to falls.	By 2020, the Kenosha County age adjusted death rate due to falls per 100,000 population will decrease to 5/100,000 (10 year average).	10/100,000 (2008)	30.8/100,000 (2015)	WISH Database
Reduce the number of hospitalizations related to opiate use.	By 2020, the Kenosha County drug-related hospitalization rate per 100,000 population will decrease to 180/100,000.	253/100,000 (2010-2011)	271/100,000 (2013-2014)	Wisconsin Epidemiological Profile on Alcohol and Other Drug Use (2016)

COMMITTEE HIGHLIGHTS:

- Prevent Suicide Kenosha County:
 - o Continue to conduct Question, Persuade, and Refer (QPR) trainings.
 - o Conducting Survivors of Suicide Support group meetings.
- Kenosha County Falls Prevention Coalition:
 - o CDC fall prevention toolkits were distributed to local hospitals who are developing protocols for falls risk assessment and referral.
 - o A falls prevention presentation toolkit was developed for coalition members to take to local meetings of older adults.
 - o One local hospital system has adopted the CDC's STEADI toolkit to reduce risk of falls.
 - o Members provide fall prevention information at health fairs and to senior groups.
 - o The number of Stepping On falls prevention classes increased from 3 to 4 a year.
 - o As 47.5% of 59 people who had a fall related death in 2016, also had a diagnosis of dementia, falls risk will become part of a 2017-18 dementia safety campaign.

HEALTHY PEOPLE KENOSHA COUNTY 2020

- A spread on falls prevention appeared in the Kenosha News' insert *My Life*.

HEALTHY PEOPLE KENOSHA COUNTY 2020

Youth Health Committee

COMMITTEE HIGHLIGHTS:

- KRW Tri-County Tobacco Free Coalition:
 - o Continued to work with landlords to promote smoke-free multi-unit housing. Conducted education on other tobacco products (OTP's) and lobbied for tax parity for OTP's.
 - o Kenosha County WI WINS – 101 checks with 100% compliance.

HEALTHY PEOPLE KENOSHA COUNTY 2020

HEALTHY PEOPLE KENOSHA COUNTY 2020

Environmental Health Committee

HEALTHIEST WISCONSIN 2020 FOCUS AREA

- Environmental and Occupational Health

2020 GOALS	2020 OBJECTIVES	BASELINE	CURRENT STATUS	DATA SOURCE
Improve air quality.	By 2020, reduce the asthma hospitalization rate in Kenosha County to 10/10,000 population (10 year average).	15.96/10,000 (2009)	11.36/10,000 (2014)	WI Environmental Public Health Tracker
	By 2020, reduce the asthma emergency department visit rate in Kenosha County to 35/10,000 population (10 year average).	68.33/10,000 (2009)	52.72/10,000 (2014)	WI Environmental Public Health Tracker

COMMITTEE HIGHLIGHTS:

- Kenosha/Racine Asthma Coalition:
 - o Continues to meet every other month.
 - o Will review the new State Asthma Plan to determine possible opportunities.
- Kenosha County Division of Health
 - o Received asthma grant from the Centers for Disease Control and Prevention (CDC) to implement the Asthma Care and Environmental Strategies (ACES) Program. Goal is to reduce the number of emergency department visits due to asthma.
 - o This program works with clients who have asthma that is not well controlled. Staff help clients find a primary care provider, make referrals to an asthma/allergy specialist, assist with getting health care coverage if they do not already have it, and can provide cleaning kits and mattress encasements as a reward for participation.
